#### Mysterious Magical Message!

*You know what? That's it. I'm done. Clearly we have a winner and me distracting him with loot every night isn't going to get him any closer to his mission of killing the rest of you. To aid him in this endeavour, my last cache will contain the means for this man to find the exact location of each and every one of you bastards, so I hope you're happy with surprise visits. If not, you should probably make sure he doesn't get his hands on tonight's drop. It will be in the Downtown Luxury Apartments sub-district at 8 PM as usual. Don't miss it, sharply dressed man!*

*I'm going to send this one last cache tonight, then I'm going to contact some people in the Magus Organization with ties to the world's countries, and I'm going to convince them that it's in the best interest of the entire world that Maineral is wiped off the map. I expect this process to take about... 5 days, so if you lot aren't done by then you can expect a nice missile strike on monday! Enjoy!*
